## INSURGENT VICTORY.

They Destroy Fort Infanta Isabella on the Trocha.

## WALLS WRECKED BY DYNAMITE

A Hand-to-Hand Fight With the Garrison and Out of Two Hundred Spaniards but Seventy-Five Escape—The Three Friends Again Seized—American Newspaper Correspondent Arrested.

KEY WEST, Feb. 8.—A report from Pinar del Rio states that Fort Infanta Isabella, near the northern end of the trocha, was attacked and destroyed Thursday. The Cubans crept close to the walls of the fort during the night and planted large mines of dynamite under them. Before daybreak they exploded them, carrying down the entire side of the fort, which was of stone. A number of the garrison were killed by the explosion.

The Cubans then attacked the breach, and, despite the efforts of Major Andreas, commanding, entered the fort. Here a hand-to-hand fight ensued, and the carnage was frightful. Heads were split open, and men clubbed to death. The Cubans did not spare one, and the Spaniards dared not surrender, as they knew that their past record in that section would be against them. At last the flag was hauled down, amid the enthusiastic cheers of the Cubans. Out of the garrison of 200 Spaniards but 75 escaped.

It is stated that fully 75 Cubans were killed or wounded, the fight being one of the most bloody ever fought there with so few men engaged. The fort was destroyed, and the Cubans retreated to the camp of Rivera, taking three small cannon with them and a good supply of small arms and ammunition. It is further stated that the Spanish colonel in command of the fort was away that night, and that he has been arrested and sentenced to be shot.

A large Spanish column was defeated by the Cubans west of Santa Clara one day last week, the details of which have been kept quiet in Havana, though the fact has just leaked out. The Cubans were besieging a fort there, and aid was sent for. A large Spanish detachment of some 400 men, under Major Setunda, was sent from a nearby encampment to drive the insurgents off. As they advanced near the town Garcia's men arranged a cunning ambush, in a thick swamp, mining the road bed and planting a cannon where a turn of the road gave them full raze.

When the mine was sprung the surprise was complete. The Spaniards attempted to rally, but the Cubans opened at short range with grape and cannister, using chain, bolts and iron pins for this. Their musketry fire was rapid and effective. The Spanish commander hurried to the front and endeavored to make his men stand. He was wounded, and his fall dispirited the men. The next in command soon after was hit, and then the fight became a running rout. The Cubans pursued them fiercely, and many fell under their avenging machetes.

After they had escaped the Cubans secured several carloads of guns and from the fallen soldiers much ammunition. Over 150 Spaniards were killed and wounded, it is stated. The Cubans lost 30 men, the Spaniards firing but little after the surprise.

## HAVANA DISPATCHES.

General Weyler Expects to End the Revolution at Once.

HAVANA, Feb. 8.—During the course of the recent remarks of Captain General Weyler at Villa Clara, the Spanish commander said that he expected to put an end to the revolution in the province of Santa Clara in the near future.

Many skirmishes are reported in the provinces of Pinar del Rio, Havana and Matanzas. In one instance recently the troops attacked the insurgents' camp, destroyed 250 huts, captured the Cuban flag and secured a large quantity of arms and ammunition. The insurgents left 28 dead on the field, as usual carrying their wounded with them. Five of the Spaniards were killed and 19 wounded.

Colonel Feijo, while reconnoitering recently, met the Cubans at Ojo de Agua. The Spaniards had been ordered out for the purpose of assisting 25 men who were engaged in the work of gathering vegetables, when they were attacked by 150 insurgents. The Spanish column returned the fire of the Cubans, killing at least 12 of them.

## SYLVESTER SCOVIL ARRESTED.

Spanish Capture the New York Newspaper Correspondent.

WASHINGTON, Feb. 8.—Consul General Lee has telegraphed the state department from Havana as follows:

"Sylvester Scovil, World correspondent, arrested Friday at Tunis, Santa Clara province."

He is the son of Rev. Dr. Scovil, president of Wooster university. He is well educated and an all-around athlete, a man of splendid physical proportions, an expert horseman and a good swordsman. Scovil was manager of the Cleveland Athletic club when the Cuban rebellion broke out. In a spirit of adventure, he determined to join the patriots, and in October, 1895, he left Cleveland for Cuba.

Consul General Lee will watch out for the interests of Scovil as an American citizen.

It is said that General Weyler had put a price of \$10,000 on Scovil's head for aid the correspondent was alleged to have given to the patriots.

## THE THREE FRIENDS SEIZED. Libel Will Be Filed and a Charge of Piracy Preferred.

JACKSONVILLE, Fla., Feb. 8.—The Three Friends and Dauntless arrived here Saturday noon from their wrecking expeditions. The Three Friends, which had been down to Jupiter, where she lost a \$50,000 dredge, was seized at once by Collector Bisbee. District Attorney Clark will file a libel today, charging piracy of the expedition of Dec. 14, and then the vessel will be surrendered to the United States marshal.

Several Cubans seen recently had given concealed about their persons and everything points to the early departure of another expedition. It is thought that the Bermuda is off the coast at some point and that the tugs Captain Kemps and Martha Helen of this city will be used to carry off the cargo. They are not carefully watched as yet, and are free to go at all hours.

## REFORMS FOR CUBA.

They Will Be Extended at Once but Are Not Likely to End the Rebellion.

MADRID, Feb. 8.—Prime Minister Canovas del Castillo in an interview announces that the government intends to faithfully execute the proposed Cuban reforms, and that it will not be necessary to wait for the complete pacification of Cuba. He says that it will be sufficient if the rebellion is confined to the western portions of the island.

The Marquis of Apetegula, the leader of the constitutional party in Cuba, in an interview says that it is doubtful whether the scheme of Cuban reforms will serve to terminate the insurrection. He adds that Captain General Weyler should not be intrusted with their execution.

## Eight Officials Shot.

MADRID, Feb. 8.—A private dispatch has been received here from Manila to the effect that eight ministers of the insurgent government have been shot.

## SUNDAY AT CANTON.

The Usual Quiet Day Prevailed at the McKinley Home.

CANTON, O., Feb. 8.—The usual Sunday quiet prevailed at the McKinley home yesterday. The major went to church, accompanied by National Committeeman Charles G. Dawes, Congressman Francis H. Wilson of Brooklyn, White House Executive Clerk Pruden and several other friends. Rev. William McAfee of Columbus, occupied the pulpit, having exchanged with Dr. Manchester, the regular pastor. Rev. McAfee was pastor of the Columbus church while Major McKinley was governor and they became close friends.

After the services Mr. Dawes, Rev. McAfee and several local friends dined with the McKinleys, the major and the minister later in the day going to the home of Mother McKinley for a visit.

Congressman Wilson had a half hour's talk with the major before leaving for the east. He said that his mission was not of national importance.

Mr. Pruden also had a short talk with the major before starting for Washington, concerning matters connected with the White House.

Mr. Dawes returned to Chicago yesterday evening, going via Cleveland to have a talk between trains with National Chairman Hanna.

S. A. Perkins, assistant secretary of the national committee, who has charge of the Washington headquarters, reached the city yesterday evening and will see Major McKinley today.

Mrs. Maria S. Saxton, who is to be a member of the McKinley household in the White House, has been seriously ill and it was feared that she might be unable to go to Washington with the family. She is much improved, however, and unless a relapse is experienced, will be one of the special train party. Mrs. Saxton is Mrs. McKinley's aunt, being the relict of the late Thomas Saxton, who succeeded his father in the management of The Weekly Repository, and established The Daily Repository, which is popularly regarded as Major McKinley's home organ.

## THE FAMINE IN LOUISIANA.

Vast Territory Affected by Failure of Last Year's Crops.

NEW ORLEANS, Feb. 8.—Reports from north Louisiana show the destitution there. The vast territory affected by the drought extends between the Red river and the Arkansas line, and the west boundary line and the river parishes to the east. Fully 35,000 persons are affected, and 35 per cent of the total population of 11 parishes in the stricken districts.

In most of this area not one bale of cotton has been raised to 10 acres in cultivation, and practically no corn has survived the long dry spell.

The cotton shortage in the parishes will range between 60 and 75 per cent. A monetary loss of \$2,500,000. The loss on cotton seed, corn and stock must be enumerated, swelling these figures to \$5,000,000. Seed corn and corn must be furnished the stricken planters, while daily rations must be served out to the thousands in order to save them from death by starvation.

MONTGOMERY, Ala., Feb. 8.—A head-on collision between freight trains occurred yesterday on the Louisville and Nashville railroad near Myers' switch, nine miles from this city, caused by the carelessness of the telegraph operator in failing to signal the southbound train.

Sid Kirkland, engineer, aged 28 of Middlesboro, Ky., was killed, and the fireman is believed to be fatally hurt. After the accident the operator took to the woods and has not been seen since.

Colonel Feijo, while reconnoitering recently, met the Cubans at Ojo de Agua. The Spaniards had been ordered out for the purpose of assisting 25 men who were engaged in the work of gathering vegetables, when they were attacked by 150 insurgents. The Spanish column returned the fire of the Cubans, killing at least 12 of them.

## PENSION OFFICE MOVE

Number of Agencies Reduced Just One-Half.

## FROM EIGHTEEN TO NINE

Hereafter There Will Be Agencies at Boston, New York, Philadelphia, Washington, Columbus, Indianapolis, Chicago, St. Louis and San Francisco—A Saving to the Government of \$150,000 Yearly.

WASHINGTON, Feb. 8.—The president has signed, on the recommendation of Secretary of the Interior Francis, an important order reducing the number of pension agencies in the United States from 18 to nine. The object of the order is to effect a very large saving to the government without inconveniencing the pensioners. The secretary demonstrates that by this reduction of the pension agencies the cost of disbursement pensions can be reduced by at least \$150,000 per annum.

The change was made possible by an amendment to the law governing the disbursing of pensions, which amendment was approved March 23, 1896. It required that all pensioners should, after that date, be paid by checks remitted by mail. Reports from the pension agencies in reply to inquiries as to the operation of the new law were to the effect that under it the pensioners are paid much more promptly; that the possibility of error is minimized, and that upon the whole it is much more satisfactory to the pensioners than the former law. The agents also advise that the pensioners receive their pensions when remitted by mail at their homes, where being surrounded by family influences the pensioner is much more likely to make a judicious disposition of his pension money. Under the previous law the pensioners collected their quarterly payments in person, and, under the influence of bad associations, were often induced to apply those payments unwisely and deprive their families of the benefits thereof.

This executive order will go into effect Sept. 1 next, its execution having been postponed until that date in order that no pensioner should suffer inconvenience in consequence of delay in receiving his pension, and to give ample time for the removal of the rolls and records from the agencies discontinued. The consolidation was made by uniting existing agencies and the entire jurisdiction thereof in order that no expense should be incurred by the making of new rolls. The agencies at Concord, N. H., and Augusta, Me., are discontinued and payments hitherto made there are ordered made from the agency at Boston; the pensioners heretofore paid at Buffalo are to be paid from New York city agency; those at Pittsburg from the Philadelphia agency; those at Louisville and Knoxville from Washington; those at Detroit from Indianapolis; those at Milwaukee from Chicago; those at Des Moines and Topeka from St. Louis, where a new agency is established.

A new agency is established at St. Louis because of the better mail facilities than at Des Moines or Topeka, and for the further reasons that there is a government building at St. Louis which can be occupied without cost to the government, and there is also a subtreasury there. A pension agency was removed from St. Louis to Topeka in 1882. There are more pensioners now in Missouri than in Kansas or in any state formerly paid by the Topeka or the Des Moines agency. There are in Missouri 53,812 pensioners, in Kansas, 42,433; in Iowa, 37,798. The following are the nine agencies and the number of pensioners paid therewith under the new order: Boston, 94,357; New York, 98,833; Philadelphia, 106,735; Washington, 140,265; Columbus, 104,492; Indianapolis, 116,036; Chicago, 125,128; San Francisco, 23,098. Total, 970,675.

All pensioners of the United States residing in foreign countries and now numbering 3,781, will continue to be paid from the Washington agency, and the navy pensioners will be paid as heretofore from Boston, Chicago, New York, Philadelphia, San Francisco and Washington.

The estimated saving to the government is as follows: Clerk hire, \$105,675; salaries, nine agents, \$4,000 per annum, \$36,000; contingent expenses of agencies discontinued, \$10,182; rent for agencies discontinued, \$9,550. Total, \$161,407.

The estimated saving in clerk hire is based upon the cost of that item at the two largest agencies in the service, namely, Columbus and Topeka. From those agencies the pensioners are paid at annual cost of 35 cents per capita for clerk hire. After the consolidation the cost for clerk hire will amount, at 35 cents per capita, to \$389,737, while that item for the fiscal year ended June 30, 1896, amounted to \$445,412.

Secretary Francis does not think any valid objection can be offered to this change, and believes that the saving will be even greater than estimated. Under the new law the agents report that about twice as many pensioners are paid during the first two days of each quarterly payment as under the old law. This saving can be effected without any inconvenience to the pensioners, and will reduce the annual expenses of the government to just that extent and may tend to allay in some degree the opposition that has been manifested hitherto to the great pension disbursements of the government.

The total cost for pensions and the disbursement thereof for the fiscal year ended June 30, 1896, was \$142,206,550, made up as follows: Payments to pensioners, \$138,215,176; fees for examining surgeons, \$672,587; maintaining pension bureau at Washington, \$2,753.

The cotton shortage in the parishes will range between 60 and 75 per cent. A monetary loss of \$2,500,000. The loss on cotton seed, corn and stock must be enumerated, swelling these figures to \$5,000,000. Seed corn and corn must be furnished the stricken planters, while daily rations must be served out to the thousands in order to save them from death by starvation.

760; cost of maintaining pension agencies, \$565,027. It is on this last item that the new order is intended to save between \$150,000 and \$160,000 per annum.

## PLAGUE SPREADING.

It Has Broken Out in Afghanistan and Beyond All Control in Bombay.

LONDON, Feb. 8.—A dispatch from Tashkend, Asiatic Russia, says that the governor of the Trans-Caspian territories reports an outbreak of the plague at Kandahar, Afghanistan. A large body of Russian troops had accordingly been ordered to form a cordon around the Amoo-Daris, or Turkistan region.

A dispatch to The Daily Mail from Bombay says that the plague is getting beyond all control. Saturday 114 deaths were reported. Even the vultures on the "Towers of Silence" are dying.

## SITUATION IN CRETE.

The Insurrection Spreading and May Soon Involve the Whole Island.

CANEA, Island of Crete, Feb. 8.—Throughout Sunday the town of Canea itself was comparatively quiet, but the fire, started as a result of last week's conflict between Musselmans and Christians, has broken out afresh, and several villages in the suburbs are in flames. Outside the walls of Canea there has been a continuous fusillade since Saturday, the soldiers siding with the Musselmans. All of the Christians have left the town. Fifteen hundred Christians have gone aboard the British vessels, while 200 subjects of France went aboard the French cruiser.

The palace of the Christian governor of the island, Georgi Berovitch, Prince of Samoa, being blockaded by Musselmans, Berovitch Pasha accordingly distributed arms with the view of dispersing the besiegers.

GOVERNOR BRADLEY must be getting awfully weary of this "extra session" talk. Between the Hunterites and the reporters, the Governor is kept busy denying reports and "setting himself right."

It's bad enough to send a nine-year-old boy to the penitentiary for breaking a window and stealing half a dollar, but it's far worse for a lot of fools to make a hero out of the young criminal, when he's pardoned. Don't be surprised if the boy goes back to Catlettsburg and breaks more windows.

MR. CHARLES C. DOBYNS has entered the race for County Clerk, his formal announcement appearing elsewhere in today's issue. Mr. Dobyns has been a member of the well-known lumber firm of W. B. Mathews & Co. for years, and is one of Maysville's leading business men and best citizens, thoroughly fitted for the important position he seeks. In addition to this he is one of the staunchest Democrats of the county, with a host of friends who would be glad to see him win.

WASHINGTON, Feb. 5.—"Bradley, I see, is going to appoint, after March 4," said a Senator and member of the Committee on Elections this morning to me.

"If he does his appointed will not be seated, and no one but a properly elected Senator will or can be. Our action in refusing to open the DuPont case and seating Kenney indicates the policy of our committee. Our committee, as composed now, will never set a precedent which would trouble us, as this one would, if we should reverse all our precedents and seat an appointee from Bradley."—Louisville Post correspondence.

Bradley imagines he's right, and he will not listen to any one else. He knows it all of course, and he wants to teach those fellows at Washington a thing or two.

EX-CONGRESSMAN BEN. BUTTERWORTH stumped the country last fall for the Republican ticket and the gold standard. In an interview at Cincinnati last week he said he was fully convinced that bimetallism must be resorted to as one of the greatest elements of return to prosperity. "Whether it will come as actual free coinage of silver is yet problematical," said he. "It must come in some such way, however. The promised era of prosperity is sadly absent. I do not think it will result from a revision of the tariff to any great extent. The only tariff laws that could do the country any good would be only such as would directly improve the condition of the laboring men and produce sufficient money to properly conduct the affairs of the Government. The idea of high protection, I believe, as the people know of me, is very bad. Under the McKinley bill, as it existed, there was a system of partnership between the manufacturers and the Government, by which great revenues were derived by extortionate taxation of the masses. I believe in protection when it will directly improve the condition of the workingman, but I do not approve of what is popularly known as the protective system, which simply robs the people in general for the benefit of comparatively a few manufacturers. I sincerely hope that the new tariff law to be enacted will not be similar to the old McKinley bill."

If Mr. Butterworth believed in bimetallism it's hard to see how he could do as he did last fall.

## PERSONAL.

County Clerk Cochran returned last night for Danville.

Miss Mamie Lee Wood is visiting on Walnut Hills, Cincinnati.

Dr. McLean and wife, of Mora, Ill., are visiting Mr. T. J. Winter and wife.

Mr. Geo. Adamson, of Nashville, is here on business and visiting relatives.

Mrs. Kate Anderson, of Newport, is visiting her uncle, Mr. L. H. Long, in the county.

Mr. W. P. Larue, of St. Louis, is here on a visit and is receiving cordial greetings from his many Maysville friends.

Miss Mary Storer, of Tuckahoe, has returned home after a lengthy visit to friends and relatives in West Union, O.

Mrs. W. E. McCann, of Lexington, returned home Saturday after spending a couple of weeks with her parents, Colonel and Mrs. W. W. Baldwin.

Mrs. T. M. Dora, of Germantown, left for Middlesborough Sunday evening, in response to a telegram announcing the serious illness of her sister, Mrs. Broshears.

Dr. REED received a telegram Sunday announcing the serious illness of his sister, Mrs. Broshears, of Middlesborough.

## ALL A BLUFF,

So a Newport Man Describes the Bradley-Yerkes Breach.

[Enquirer.]

A prominent Newport Republican, in speaking of the prospective candidate for the United States Senator and his chances, unbosomed himself as follows:

"Governor Bradley is a shrewd politician, and yet I am confident that he will not succeed in having his man elected. As evidence of his shrewdness, the Governor has had telegraphed to the newspapers the existence of a breach between him and John W. Yerkes. Now, I know that no such breach exists, and that it is simply a plan of Bradley's to get Representative Lyons, of Campbell County, and Representative Jasper, of Pulaski County, to vote for Yerkes. Neither Lyons nor Jasper will vote for Bradley's candidate, and it is said they were to be led to believe that he did not want Yerkes elected. I believe Judge Holt's chances of being elected just as good as any other candidate, for the simple reason that his opponents are so assiduously engaged in announcing that he is not a candidate. And while Judge Holt has never answered this assertion in public, he has written letters that plainly state he is a candidate and will remain a candidate until a United States Senator is elected."

Free Pills.

Send your addresses to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to smoth and bowels greatly invigorate the system. Regular size 25c. per box. Sold by J. J. Wood, druggist.

River News.

The Stanley passed up at noon Saturday for Pomeroy.

The heavy rains Friday night brought out all the side streams.

Wharfmaster Phister spent Saturday in Cincinnati on business.

The Jessie, that had been in Beasley's Eddy, left Saturday for points below with a tow of coal.

The M. P. Wells came out of her harbor at South Ripley Saturday and is again in her old run.

Rising fast here, and at all points above, as a result of the heavy rains. Look out for a big river.

For the Farmer.

The corn crop of 1896 is estimated by the Government at 2,283,875,000 bushels. This is greater than the 1895 estimate by 132,875,000 bushels. The average farm price per bushel is given as 21.6 cents, making a total value of the crop of \$491,000.

The best evidence that people generally recognize the great shortage in the horse stock of the country that will soon be manifested, is evidenced by the frequent inquiry for good size, good breed and every way likely young stallions from one to three years old.

Box Opening and Musical.

The ladies of the Christian Church will have an opening of their self-denial boxes to-morrow evening at 7 o'clock at the church.

Every member of the church is urged to be present. Those having boxes will please bring or send them, without fail.

The public cordially invited. Good music.

The County Supervisors of Tax reassembled this morning to hear complaints.

MR. JAMES LIMERICK, who has been ill for some time, was reported somewhat better this morning.

A BILL was offered in the Senate last week by Senator Mills, of Texas, to increase the pensions of the surviving soldiers and sailors of the war of 1812. There are only twelve of these veterans living, and they are Garret Carl, 100 years old; Elijah Glenn, 100 years old; Loucian Lejune, 100 years old; Eleanor Smith, 100 years old; Hosea Brown, 104 years old; Joseph Coffman, 94 years old; Hiram Cook, 96 years old; John Lumberon, 90 years old; William C. Mass, 93 years old; Isaiah P. Paxton, 91 years old; William R. Yancey, 95 years old.

On February 2nd and 16th, March 2nd and 16th, April 6th and 20th, May 4th and 18th, the C. and O. Railway will sell home-seekers excursion tickets to points in Alabama, Florida, Georgia, Kentucky, North and South Carolina, Tennessee, Virginia, Arkansas, Arizona, Colorado, Indian Territory, Iowa, Kansas, Minnesota, Missouri, Nebraska, New Mexico, North and South Dakota, Oklahoma and Texas. Tickets good returning twenty-one days from date of sale. For further information address or call on W. W. Wikoff, ticket agent, Maysville, or T. A. Garrigan, Southeastern Passenger Agent, Huntington, W. Va.

## CINCINNATI TOBACCO MARKET.

Very Satisfactory Sales of Old the Past Week—And An Improvement in the New.

The Cincinnati Leaf Tobacco Warehouse Company in its circular for the week has the following:

Under the present improvement in our market for old tobacco very satisfactory sales have been made during the past week. There was more steadiness in the demand than we have experienced for a long time, the bidding and prices being about the same from Tuesday to Friday.

Only a few hogsheads of really fine tobacco were offered, and they sold well. Mediums, the kind rejected three or four weeks ago at from 4c. to 5c., readily bought from 6c. to 7c. and over. In all the low grades, excepting only the very meanest kinds, there is a marked advance. It is evident that the manufacturers want the goods, and we would say to our friends give them the tobacco while we want it.

We think there is also an improvement in our market for new stock, particularly for goods of any merit at all, but a large proportion of the offerings continues to be very indifferent in quality, and hence the average price is greatly cut down. A shipment of about fifty hogsheads is of West Virginia tobacco was received at the Globe Warehouse this week, and while the quality was not quite up to the standard of this State, the desire to purchase these goods caused a strong competition and extra prices were realized. The shipments from several of the southern counties to the Cincinnati market speak well for her future, and our buyers will remain at home to make their purchases and will take all these shipments at the highest prices, as they are partial to these tobaccos and want to establish a market to induce the shipments direct to Cincinnati.

Receipts were not heavy during the week and the stocks in warehouses are decreasing. In fact, there is much less tobacco held by shippers than there was at the same time last year, and this fact doubtless contributes to the betterment of the market, as does also an increased speculative feeling. But few country purchases have as yet been made, and consequently the present offerings are mostly of growers' packing. We expect a continued activity and believe that while there will probably be no boom, a good steady market may be looked for.

Women are not the only ones who are sensitive about their ages. A man doesn't like to be told that he is getting old. Health keeps a man young. It doesn't make any difference if he has lived eighty years. If they have been healthy years, he will be hale and hearty and won't look within twenty years as old as he is. Good digestion and rich, red blood make people look youthful. Dr. Pierce's Golden Medical Discovery makes rich, red blood. It makes health in the right way. It works according to the theory, and in 30 years of practice, it has proved that the theory is absolutely correct. It begins at the beginning—begins by putting the stomach, liver and bowels into perfect order, but it begins its good work on the blood before it finishes with the digestive system. It searches out disease germs wherever they may be and forces them out of the body. All druggists keep the "Discovery."

## He Said "Poke and Beans."

Joe Cavan, who has had a whirlwind experience in the south and west, said to the crowd in the same old place, up town hotel:

"My advice to you all is, be natural. Do not try to deceive people with your affected talk or in your clothes. You will be certain to show the cloven foot somewhere. I was at a dinner once in St. Louis. It was given by Governor Marmaduke. Before we had given our orders, for at a western dinner every man has the privilege of saying what he wants, the governor asked each one of his guests where he hailed from. One was from Tennessee, one from Illinois, one from California. The east was not represented, so I handed in my card from Vermont. Just then the waiter passed the bill of fare, and my ruling passion asserting itself, 'Poke and beans,' said I in my natural voice.

Box Opening and Musical.

The ladies of the Christian Church will have an opening of their self-denial boxes to-morrow evening at 7 o'clock at the church.

Every member of the church is urged to be present. Those having boxes will please bring or send them, without fail.

The public cordially invited. Good music.

The County Supervisors of Tax reassembled this morning to hear complaints.

MR. JAMES LIMERICK, who has been ill for some time, was reported somewhat better this morning.

**ADDISON J. CAMMACK.**

A Kentuckian Who Retires From Wall Street a Millionaire.

NEW YORK Feb. 3.—Addison Cammack, the famous Wall street operator, has decided to sell his seat on the New York Stock Exchange. He has been a member since March 19, 1875. He is a millionaire. His money was practically all made in stock speculation. He was born in Kentucky, and his friends say that when he came to Wall street from New Orleans shortly after the war he had less than \$10,000.

He became associated with Charles J. Osborne and carried through some daring stock operations with the latter. He later was also associated in stock operations with Charles F. Woerishoffer and W. H. Vanderbilt. He operated on the bull side of the stock market at times. He is most famous as one of the most courageous and successful operators on the bear side of the market that Wall street has ever seen.

About ten years ago he married Miss Hilbreth, of Washington. He was sixty years old at the time and his wife twenty.

For over a year past Mr. Cammack has had little or no interest in the stock market.

Cammack is a descendant of a fine old Virginia family who came to this State at an early period in its history. His mother was one of several handsome daughters, and was born and reared to womanhood on "Tuckahoe Ridge," in Mason County. She was Miss Patsy Mackoy, a relative of the late Miss Mary Mackoy, of Tuckahoe Ridge, and was married in the early part of this century to Mr. Cammack, a resident of the southern part of the State. She lived but a few years, and left three sons, of whom Addison was the youngest,—a mere infant at the time of his mother's death. He is a descendant through his mother of Geo. Walton, a signer of the Declaration of Independence, and is also a relative of Chief Justice Marshall, of Virginia.

**Fire in the Police Court Room.**

The alarm early Sunday morning was caused by a small fire in the Police Court room, at the court house. The blaze was at the base of the east wooden column supporting the main floor, and was soon extinguished. The lower part of the column was burned off and the fire had burned through the floor also. Damage slight.

The fire evidently started from a cigar stub thrown into one of the sawdust boxes used as spittoons.

**That Dawson Check.**

William Dawson, of Lewis County, has paid over that \$50 he got on a check intended for Constable Wm. Dawson, of this city. The money was paid to J. M. Lopinsky, of Portsmouth, who cashed the check. He will send the money to Constable Dawson, but it will probably have to go through the hands of the State officials at Frankfort.

He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to the use of Dr. King's New Discovery, and knows it to be the best in the world for lung trouble. Trial bottles free at J. James Wood's drug store.**

**STATE TAXES**

**Must be Paid by Express Companies—Important Decision of the Supreme Court.**

**WASHINGTON, February 1.—The Supreme Court to-day affirmed the lower courts of Ohio and Indiana on the franchise tax cases appealed by the Adams Express Company. The court finds that the States have power to enforce the tax in controversy and thus defeats the corporations. No opinion was filed in the Kentucky express case or the Henderson bridge case, but the former is identical with those from Ohio and Indiana. It is contended that the Henderson case presents a slightly different question.**

**Under the State law, which was assailed by the express companies, these companies are taxed in three forms: First, on their real estate; second, upon their gross receipts on business done within the State, and thirdly, additionally assessed by the State Board. It was the last assessment to which the companies took exceptions. For the three years involved, the State Board had increased the valuation of property in assessments under this law from \$289,862 to \$449,702. This increased valuation was arrived at by taking the market value of the entire capital stock of the express companies as a basis for arriving at the true value in money of the company's property in Ohio. The Chief Justice did not make the opinion public, merely announcing that the decision of the court below had been affirmed.**

**The Chief Justice also announced the decision of the court in the cases involving the extent of the taxing power of a State as applied to express companies and telegraph companies in Indiana, affirming the decision of the State court in each case and thus sustaining the law. The two cases involve the validity of the State law of 1893 for the taxation of telegraph, telephone, palace car, sleeping car, dining car, express and fast freight companies, which empowers the State Board of Tax Commissioners to assess taxation other than that of a local character. This law imposes a penalty of 50 per cent. upon those who do not pay their taxes within the time specified. Justices Harlan and White dissented.**

**DRAWING.**

**Practically It is the Universal Language of Industry—Its Importance as a Study.**

**Drawing is a universal language. The public at large does not realize its omnipresence in every day affairs. The clothes a man puts on in the morning were made from drawings or patterns. The keys and small coins in his pockets were made from drawings. The chair in which he sits eating his breakfast was made according to drawings; so were the carpets and wall paper, the table and objects upon it. The stove on which his breakfast was prepared, the system of water pipes that brings him his drinking water, the stair case he descends to get to the street, the railroad station, the car on which he rides down town, the illustrations in the newspapers which he reads on the way, and the printing presses which duplicate them, all involved skillful drawing somewhere and by somebody, in order that they might exist for his convenience and pleasure.**

**Drawing is a necessary factor in all productive industries. It is practically the universal language of industry.**

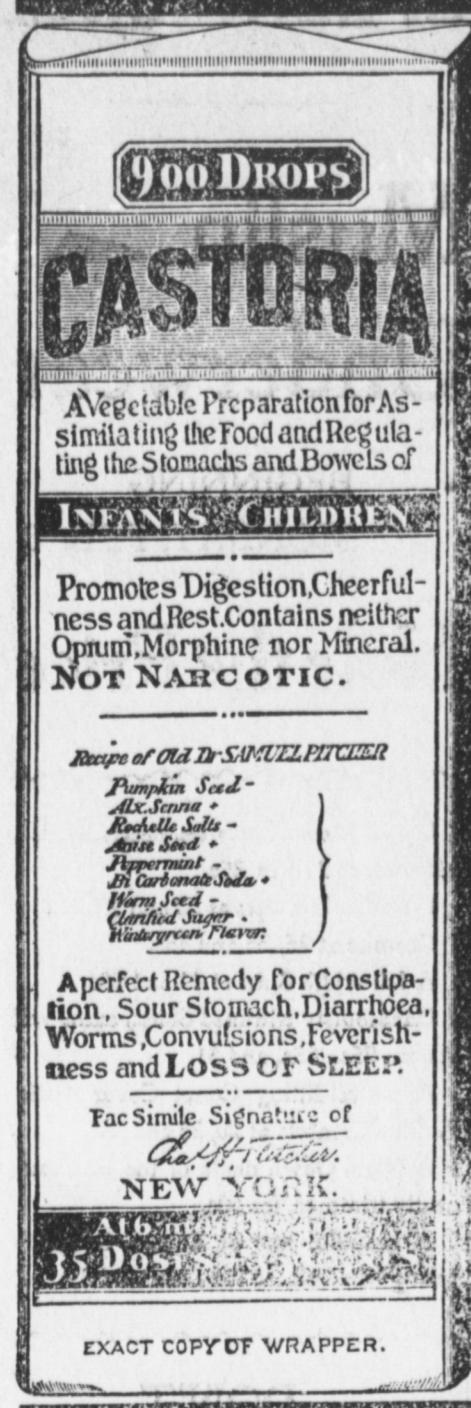

**If this were more generally understood to be the fact the teaching of drawing in the schools would have a stronger support on the part of the conservative and "practical" men of the community.**

#### The Whaling Industry.

The trials and tribulations of the whaling industry defy the meager justice which the resources of a single paragraph affords. A volume might cover the subject. The difficulty about whaling is the uncertainty of whales. These mammals decline to be regulated by any signal service reporter and refuse in their migrations to respect precedent or the ambitions of the arctic oil works.

The consequence is a skipper may cruise the northern latitudes, trying conclusions with icebergs and polar bears, endangering life and limb in a mangy old tub, encountering the perils of storm, wave and Eskimo, and all without sighting a spout or capturing a yard of whalebone.

I listened recently to the mournful reminiscences of Captain Green, a hardy mariner of much experience, who after many years of laboring at the oil industry retired to a raisin ranch at Fresno. Owing to the decline of raisins, however, he took to the ocean again, equipped a vessel and sailed into the latitudes of winter. There he found an antique steam whaler, the Reindeer, and for two long and weary years they have kept each other company in the close knit sisterhood of misfortune. Once during the second year they sighted a whale, and Captain Green encompassed its capture. A bowhead it was, and no great prize. Tiring of cold, salt and ill luck, the twain decided at last to go south for rest and provisions. They started together, when something broke on the Reindeer, and she was condemned to delay until the damage might be repaired. How the gallant skipper cursed the misfortune which detained him among the icebergs! How he railed at fate! Two days later a school of whales hove in sight. The captain and crew dashed upon them and in four hours had killed a dozen giants, which meant at ruling prices at least \$60,000 worth of whalebones. However, it often happens in the arctic, as in the world, that the darkest moment of misfortune is the dush that preceded the advent of prosperity.—San Francisco Wave.

#### Homing Pigeons.

When pigeons were to be sent back and forth, it has been usual to keep two sets, with their respective homes at either end of the course, and when they have reached their homes to carry them back to the places from which they are to be dispatched. An ingenious process has been devised to overcome this difficulty and cause the birds to fly with equal certainty in both directions.

Pigeons, for example, whose home is in Paris are confined for several days at St. Denis and fed there at a stated hour every day with some favorite food which is not given them at their real home. They become in the course of time familiar with their new home and its choice dishes. When set at liberty, they start off at once for Paris without forgetting the good things they enjoyed at St. Denis. When they are to be sent back, they are made to fast a little while, and are then let loose at about feeding time at St. Denis. They go thither, and when they have their own way, time their going so as to be there at the exact moment of feeding. Birds have thus been taught to fly back and forth regularly between places 30 miles apart.—G. Renaud in Popular Science Monthly.

#### Indignant.

Botts—You are a weather prophet, I believe?

Potts—Sir, I allow no man to call me a falsifier.—Yonkers Statesman

the Pennsylvania company, in jumping from his engine at Atwater, O., slipped and fell, and his clothing catching on a truck, he was dragged under the train and killed. He was 27 years of age, unmarried and resided at Atwater.

Sam Brown of Huntington, Ind., a young man about 28 years of age, was run over and horribly mangled by a west-bound passenger train of the Air Line railroad at that place. Brown was subject to epileptic fits and it is supposed that he had an attack while walking on the track.

Andrew Sauer of Defiance, O., the cashier of the defunct Defiance Savings bank, who has become famous through his many trials for alleged irregularities, will again be placed on trial in the court of common pleas this week. This will be his fourth trial and will be on the charge of perjury.

Mr. George Shanklin of Evansville, Ind., died in Washington Saturday afternoon, at the residence of his brother-in-law, Justice Harlan, of the United States supreme court. He was associated for years with his brother, Mr. John Gilbert Shanklin, in the management of The Evansville (Ind.) Courier.

A wreck occurred at Davisville, W. Va. Two sections of a freight were going east on the Baltimore and Ohio railroad and the second section ran into the first section. Engineer John Richardson and Fireman Hugill of the second section were killed. Two brakemen were badly hurt; their names are unknown.

American Oak Leather company and DeFord Leather company, creditors, have filed a motion in the probate court to have W. B. Grice, assignee of Padan Brothers & Company of Portsmouth, O., invest \$5,000 in his hands pending litigation now in progress. Judge Osborn issued an order for such investment, requiring the assignee to report any position concerning it for confirmation.

John Craig Dunlevy of Chicago died Saturday. Mr. Dunlevy was born in Lebanon, O., Oct. 5, 1822. He is the grandson of Francis Dunlevy, who was born in Winchester, Va., and who, after serving in the war of the revolution, moved to southern Ohio with the pioneers of 1789. Howard Dunlevy was the father of John C. Dunlevy. He was a lawyer by profession, and for many years was a partner of his wife's cousin, Thomas Corwin. John C. Dunlevy studied law in the office of Mr. Corwin. He married, in 1846, Sarah Janet Hubard, daughter of the Rev. Hiland Hubard of Columbus, O., and was admitted to the bar the following year. At the age of 81 he was elected judge of the probate court of Warren county. In 1869 he removed to Chicago, and has since that time made that city his home.

ICE GORGE GIVES WAY.  
The Steamer Buckeye State Stranded and Will Probably Be a Total Loss.

LOUISVILLE, Feb. 8.—An ice gorge 15 feet high and 20 miles long, which has been forming for several days, gave way yesterday afternoon. Several New Orleans and Memphis packets have been caught in the ice and compelled to lay up. If these have not succeeded in finding refuge in tributaries the loss may be large.

A telephone message from the scene late last night states that the Buckeye State ran into Blue river to escape the ice. The water in Blue river quickly rose with the passing of the gorge and quickly receded, leaving the steamer stranded on the shore. Her pilothouse and smokestack were demolished and it is now thought she will be a total loss. Her value is \$40,000.

NOTED CRIMINAL LAWYER DEAD.  
NEW YORK, Feb. 8.—Charles W. Brooke, the noted criminal lawyer, died early yesterday morning at the S. R. Smith infirmary, at Brighton, S. I. Mr. Brooke was taken ill on Jan. 26, while conducting the Freeman trial in this city. An examination by his physicians showed that he was suffering from a cancer in the intestine, and that his condition was critical. An operation was performed a few days later and the patient gave encouragements of recovery until Saturday afternoon, when a rapid decline set in which continued until his death.

Death of an Old Banker.  
WATERTOWN, N. Y., Feb. 8.—Talcott H. Camp, president of the Jefferson County National bank, and also president of the Jefferson County Savings bank, and the oldest bank official in northern New York, died yesterday after a brief illness at his residence in this city. Mr. Camp at the time of his death was a trustee of Hamilton college. He had just passed his 80th birthday.

COAL SHIPMENT FROM PITTSBURG.  
PITTSBURG, Feb. 8.—Both the Allegheny and the Monongahela rivers are full of floating ice and are rising rapidly, but a dangerous flood is not apprehended. A good boating stage of water is assured, however, and between 7,000,000 and 10,000,000 bushels of coal will be shipped to southern ports during the next two days.

### Expensive Benevolence.

There is a venerable and benevolent judge in Paris who at the moment of passing sentence on a prisoner consults his assessors on each side of him as to the proper penalty to be inflicted. "What ought we to give this rascal, brother?" he says, bending over to the assessor on the right.

"I should say three years."

"What is your opinion, brother?" to the assessor on the left.

"I should give him about four years."

The judge, with benevolence: "Prisoner, not desiring to give you a long and severe term of imprisonment, as I should have done if left to myself, I have consulted my learned brethren and shall take their advice. Seven years."
